

Nightingale Community Hospice Trust

“together we can make a difference”

Matched Giving Scheme

The Matched Giving Scheme was established to encourage members of staff to get involved in the voluntary sector and to help fundraise through personal participation in events or by giving their time freely to support the work of the Nightingale Community Hospice Trust, (NCHT)

When an employee wishes to take part in an event that raises money for the NCHT you as a company match any funds the employee raises. For example, if the employee runs the London Marathon and raises £2,000, then you match their achievement. Or perhaps they organise and run a stall at our Christmas Fair and raise £400, you match the £400 raised.

These schemes work well in allowing your employees to become involved in voluntary work with the company giving them their fullest support by matching any monies they have raised.

Please contact our fundraising department if you wish to discuss this further by calling 020 8366 9674 or email mary@nightingalehospice.org.uk
